# Task #3: Observer Pattern (20 min)

- Download Temperature Converter Code from Moodle
- Run MVCTemperatureConverter and inspect application
- Add another view to the TemperatureConverter:
  - This view shows the temperature in Kelvin
  - Kelvin scale starts at -273.15 Celsius and uses the same units as Celsius scale
- (Optional) Add slide views for Fahrenheit and Kelvin

Temparature Scales

Absolute Zero

Thermometers compare Fahrenheit, Celsius and Kelvin scales.
